CZECH REBUILD PARTNERS

26 Czech companies for the reconstruction of Ukraine

Building Together · Будуємо разом

ReBuild Ukraine 2026

EXPO XXI Warsaw · 12–13 November 2026

Online guide EN · UA · CZ

FOREWORD

Building Together

Будуємо разом

doc. Ing. Karel Havlíček, Ph.D., MBA

Minister of Industry and Trade of the Czech Republic

Dear partners,

the reconstruction of Ukraine is one of the most important tasks Europe faces today, and the Czech Republic wants to be a reliable partner in it. This guide presents 26 Czech companies offering proven technologies and know-how in construction, energy, water management and recycling.

The Ministry of Industry and Trade actively supports Czech companies in developing products and services with high added value and in building lasting partnerships abroad. We are not looking for one-off deliveries, but for long-term cooperation with Ukrainian municipalities, utilities and businesses.

I wish you inspiring meetings and successful partnerships at ReBuild Ukraine 2026. Let us build together.

station

Frýdlantské strojírny – Rasl a syn a.s.

Frýdlantské strojírny – Rasl a syn, a.s. · www.frystroj.cz

AT THE STAND Mineral wool boards (exhibit E2)

ABOUT THE COMPANY

Frýdlantské strojírny is a Czech mechanical engineering company supplying complete automated production lines for basalt mineral wool boards—from raw material feeding to finished product—and developing solutions for multi-storey rotary parking systems.

OFFER FOR THE RECONSTRUCTION OF UKRAINE

Automated basalt mineral wool production lines. Supply of finished basalt mineral wool boards for façade, floor and roof insulation. Rotary parking systems: more spaces on less land with minimal construction work.

PROMSTAL ENGINEERING

02

station

Promstal Engineering

Promstal Engineering, s.r.o. · www.promstal.cz

ABOUT THE COMPANY

PROMSTAL Engineering specializes in civil protection shelters, strategic and industrial infrastructure. We design, manufacture, and install resilient structural systems worldwide. As a trusted partner for rapid modular construction, we deliver proven solutions for demanding environments.

OFFER FOR THE RECONSTRUCTION OF UKRAINE

Proven in Ukraine: from a modular medical facility to a school shelter near the frontline. We deliver complete resilient solutions for critical infrastructure recovery. Fast and reliable.
