# BRAZILIAN CALENDAR OF EXHIBITIONS AND FAIRS 2016

The Brazilian Calendar of Exhibitions and Fairs is an official publication of the Federal Government. Published annually since 1969, it features a wide selection of events from a number of sectors that, together, highlight the multiplicity of our country's economy.

Today, the Calendar is jointly organized and edited by the Department of Trade and Services Policies (DECOS) of the Secretariat of Trade and Services (SCS) of the Ministry of Development, Industry and Foreign Trade (MDIC) and the Department of Trade and Investment Promotion (DPR) of the Ministry of Foreign Affairs (MRE). The partnership between the two Ministries began with the creation of the Permanent Inter-ministerial Working Group, established by Ordinance No. 5 of January 11, 2008.

The version of the Brazilian Calendar of Exhibitions and Fairs printed in Portuguese, English and Spanish is distributed free of charge throughout Brazil to event managers, companies, municipalities, chambers of commerce, entities that represent the private sector, government agencies, convention centers, consulates, embassies and any person or entity interested in receiving a copy, as available. Outside Brazil, the Calendar is distributed by the Ministry of Foreign Affairs through the Trade Promotion Section (SECOM) of Brazilian embassies and consulates worldwide.

The electronic version, also available in the above languages, is available for free consultation and download through Brazil's Exhibition and Fair System ([www.expofeiras.gov.br](http://www.expofeiras.gov.br)) and Brazil Export ([www.investexportbrasil.gov.br](http://www.investexportbrasil.gov.br)). Visitors to these websites can quickly and objectively find any registered event, searching entries through a number of different filters including "date", "event name", "industry" and/or "venue". You can also obtain contact information for each event's organizers of a particular event.

This Calendar does not contemplate all companies or entities that promote events, nor all events happening in the country and there might be others at the same level of excellence in their achievement, qualification and reliability. The events listed in this Calendar have been submitted by their organizers on their own initiative. Therefore, the Federal Government only disseminates the events included in the Calendar. It is the sole and exclusive responsibility of the companies to organize business meetings.

Consequently, all information on the events herein listed is the sole and exclusive responsibility of the promoting companies and organizations. Additional information may be searched by the interested parties in the websites of the events and with their promoting companies/entities. Their addresses and phone numbers are available at the end of this publication.

Good business to all!

# INTRODUCTION

The Ministry of Development, Industry and Foreign Trade (MDIC) and the Ministry of Foreign Affairs (MRE) promote the annual publication of the Brazilian Calendar of Exhibitions and Fairs, both Ministries believe that fairs provide great opportunities for the promotion and marketing of products and services and also play an important role in the dissemination of knowledge about business.

Through the fairs, one can show the world the diversity and the characteristics of the products marketed in the country. In terms of results, the fairs' environment enables immediate trading of products and services exhibited and the creation of a permanent commercial interchange.

There are several types of exhibitions in Brazil, from health and beauty to those of architecture and engineering. Specialized fairs enable companies to contact potential customers in a variety of categories such as suppliers, representatives and distributors, while they also provide opportunities for participants to interact with competitors and to catch up on the news from the market.

In this sense, the Brazilian Calendar of Exhibitions and Fairs is a valuable tool for the Brazilian and foreign entrepreneurs, because it lists various events that can lead to new business opportunities. Through fairs, businessmen can trace trade strategies and raise their competitiveness in the face of the demanding globalized market. Fairs also stimulate business tourism, contributing to the economic growth of the country.

Good business to all!

## INDEX BY SECTOR

### Agribusiness

• <b>SHOWTEC</b> .....	<b>42</b>
