4. FACULTY OF NUCLEAR SCIENCES AND PHYSICAL ENGINEERING,  
CZECH TECHNICAL UNIVERSITY
5. STATE OFFICE FOR NUCLEAR SAFETY
6. ŠKODA JS
7. VÍTKOVICE MACHINERY GROUP

## COMPANY PROFILE

The dataPartner company specializes in advanced technical solutions in the field of Information and Control systems for industrial companies and nuclear research sector. dataPartner Ltd. has collaborated for many years with research institutes and experts on nuclear facilities. The company offers highly precise neutron flux measuring means, control, protection and HMI systems, which were already implemented on TRIGA Mark II research reactor in Vienna, LVR-15 in Řež, CZ and VR-1 school reactor in Prague. The LR-0 research reactor in Řež is equipped with dataPartner's control system as well as Spent Fuel Cask Transfer Facility in Flamanville 3, France.

## CHARACTERISTICS

**Industry:** IT technology, I&C systems

**Turnover:** 36.3 million CZK

**Head of company:** Ing. Ladislav Reisner

**Number of employees:** 33

**Headquarters:** České Budějovice

Ing. Ladislav Reisner  
General manager

## CONTACTS

## REPRESENTATIVES AT AMNT

Jan Herrmann, Project manager

# DIAMO, s. e.

## COMPANY PROFILE

DIAMO is a state enterprise, which implements the inhibition of the uranium, ore and, partially, of the coal mining in the Czech Republic as declared by the government and ensures production of uranium concentrate for the nuclear energy sector. Company also provides remediation work and removal of the consequences of mining and processing of uranium ores, base metals and coal.

## CHARACTERISTICS

**Industry:** Remediation work, mining

**Turnover:** 3.9 billion CZK

**Head of company:** Ing. Tomáš Rychtařík

**Number of employees:** 2 676

**Headquarters:** Stráž pod Ralskem

## CONTACTS

DIAMO, state enterprise

Máchova 201

# EMBASSY OF THE CZECH REPUBLIC IN BERLIN

Embassy of the Czech Republic  
in Berlin

## COMPANY PROFILE

The Embassy of the Czech Republic in Berlin is the official representative of the Czech Government in the Federal Republic of Germany. Major support services of the Embassy (free of charge) – complementary to the Czech-German Chamber of Commerce and German Embassy in Prague – for German and foreign companies with regard to the Czech market are as follows:

- Processing of tenders/supplier search (administered by CzechTrade)
- Basic information service for investors and companies (in cooperation with CzechInvest)
- Contact mediation and support of business meetings (Government, Chambers and Associations, Companies)

## CONTACTS

Embassy of the Czech Republic in Berlin

# FACULTY OF NUCLEAR SCIENCES AND PHYSICAL ENGINEERING

## COMPANY PROFILE

The Faculty of Nuclear Sciences and Physical Engineering (FNSPE) was established in 1955, as part of the Charles University, but in 1959 became a new special faculty of the Czech Technical University in Prague. A complex approach to all nuclear branches was intended, so specialists from universities, technological institutions, and industry were brought together to comply with this task. Later, newly developed areas of physics application, e.g. plasma and solid state physics, lasers, cosmic research, etc., were included in the Faculty curricula. In the last fifteen years the rapidly developing branches of mathematical and software engineering, interdisciplinary application to ecology, medicine, economy, archeology have been also evolved. The Faculty is equipped with several large research facilities, such as the VR-1 training nuclear reactor, scanning electron microscopes, high power laser systems, computational and advanced radiochemical laboratories, satellite laser ranging station (Helwan, Egypt), etc.

# STATE OFFICE FOR NUCLEAR SAFETY

## COMPANY PROFILE

The State Office for Nuclear Safety is a governmental body, which is responsible for governmental administration and supervision in the fields of uses of nuclear energy and radiation and of radiation protection. The authority and responsibilities of the SÚJB include the following issues in particular:

- State supervision of nuclear safety of nuclear facilities, nuclear items, physical protection of nuclear facilities, radiation protection, and emergency preparedness of nuclear facilities and workplaces handling ionizing radiation sources.
- Licensing of activities for the siting and operation of nuclear facilities and workplaces handling very significant ionizing radiation sources, for handling ionizing radiation sources and radioactive wastes, transportation of nuclear materials and radionuclide emitters.

President

## REPRESENTATIVES AT AMNT

Jarmila Krejčíková, Head of Department for International Cooperation

## COMPANY PROFILE

ŠKODA JS a. s. is a longtime reliable supplier of technologies for nuclear power industry. Its main business activities include engineering, the production of components and the provision of services for nuclear power plants. In the past sixty years, ŠKODA JS a. s. has participated in the construction of nuclear power plants not only in the Czech Republic and Slovakia, but also in Hungary, Bulgaria and Germany. The company is part of the Russian engineering group OMZ.

## CHARACTERISTICS

**Industry:** Engineering

**Turnover:** 2.9 billion CZK

**Head of the company:** Josef Perlík

**Number of employees:** 1 100

**Headquarters:** Plzeň

# VÍTKOVICE MACHINERY GROUP

## COMPANY PROFILE

VÍTKOVICE MACHINERY GROUP is the most important Czech engineering group with a strong position in selected segments of machinery production and in the area of supplies of large investment assemblies. In December 2013 it celebrated 185<sup>th</sup> anniversary and currently incorporates approximately thirty companies. The group disposes of a modern, extensive and unique production base and know-how based on research and development.

VMG provides manufacturing, deliveries and maintenance, including spare parts, of pressure vessels for primary circuit of nuclear power plants, especially steam generators, volume compensators and piping systems of primary circuit for VVER type reactors. VMG is manufacturing and delivering pressure devices for secondary circuit of nuclear power plants; ensures complex services on field of manufacturing of pressure vessels for system of low pressure and high pressure steam regeneration. Furthermore VMG ensures manufacturing and delivery of condensate coolers for low pressure steam heaters, manufacturing and delivery of pressure vessels for primary circuit such as steam generators, volume compensators and piping systems of primary circuit for VVER type reactors, including spare parts.

## CHARACTERISTICS

**Industry:** Engineering industry

**Turnover:** 16.6 billion CZK

**Head of the company:** Ing. Jan Světlík

**Number of employees:** 7 100
