## HSF System a.s.

Contact Person: Jan Vitvar  
Phone: +420 736 525 255  
E-mail: vitvar@hsfsystem.cz  
www.hsfsystem.cz

HSF System a.s. is a Czech-owned company which has been operating in the construction market since 2002. We have carved out a position among the major construction companies in the Czech and Slovak Republics. Our success is based on cutting-edge project and building quality provided by a stable team of experts with many years' experience.

We are a reliable **general building contractor** offering investors a high level of our own work which comprises up to a third of the order volume. We provide our customers with design and engineering work. We also undertake work as developers. We implement **full roofing and facade cladding** for modern department stores, administrative, commercial and industrial buildings including their renovation. We **supply steel structures, aluminium windows, doors, glass facades as well as skylights** and a wide range of building materials focused on **thermal insulation, roof waterproofing and profiled sheets** not only in the Czech and Slovak Republics but also across the whole Europe. We have already implemented projects in Germany, Poland, Switzerland, Hungary, Italy and Denmark.

We manage our activities from the company seat in Ostrava and various branches throughout the Czech Republic. The branches are situated in Prague, Pilsen and Brno. Our sphere of interest reaches as far as the Slovak Republic, our subsidiary, HSF System SK, s.r.o., is located in Žilina.

Our target customers are developers focusing on industrial and administrative development, general building contractors and private investors.

## PS BRNO s. r. o.

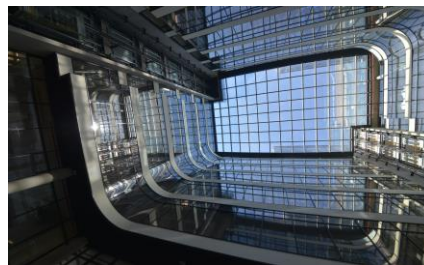

Contact Person: Libor Mátl  
Phone: + 420 724 579 770  
E-mail: matl@ps-brno.cz  
www.ps-brno.cz

PS BRNO s. r. o. is a **general building contractor** and in terms of its size in the building industry segment the company ranks among mid-sized businesses. We can thus offer both high quality guaranteed by a strong and stable company in the background and highly customized approach to each customer.

Apart from building production in the area of building construction we have been specialising in the **manufacture and erection of steel structures from and in manufacture and assembly of aluminium windows, doors and facades**. For the production of aluminium structures (pre-assembled facades, windows, doors, re shutters) PS BRNO s. r. o. uses top-quality systems by SchÜCO International and WICONA.

The quality of our services is the utmost goal of the company. Our quality management system complies with ISO 9001, ISO 18001 and ISO 14001.

## ZEBR s.r.o.

Contact Person: Lukáš Dulínek  
Phone: +420 519 515 810  
E-mail: lukas.dulinec@zebr.cz  
www.zebr.cz

Zebr has been present on the market since 1991 and has developed into a reliable and stable company. Company's core activities focus **on louver manufacturing technology, both interior and exterior and components for assembly**. We have many-years of experience both in the field of mechanical engineering and in the louvers sector and due to the technical quality of our innovative products, ZEBR has recently become one of the global leaders in the screening technology manufacturer sector.

**INTERIOR BLIND MACHINES** -The machines are intended for processing varnished aluminium strips. The machines provide shaping, cutting of required holes, cutting to the required length, or threading slats to the ladder.

**EXTERIOR BLIND MACHINES** - Rolling lines intended for the production of horizontal exterior blinds, capable of rolling and processing all types of common slats.

**COMPONENTS FOR INTERIOR BLINDS** - We have developed our own low-noise blind system ZEUS, which is intended for plastic as well as wooden windows, with the reduced number of components. Blind system ZEUS is made in two design variations - straight or round
