THE POWER OF PARTNERSHIPS

THE POWER OF PARTNERSHIPS: REALIZING HIGH-LEVEL COMMITMENTS TO PREVENT AND CONTROL NCDs

Side-event on the occasion of the 73rd United Nations General Assembly and the Third UN High-level Meeting on NCDs (HLM3).

The Governments of Israel and China, supported by other Member States, UNITAID, the WHO Global Coordination Mechanism on NCDs and non-State actors, will convene to share successful examples of, and advocate for, increased political leadership, resource mobilization, policy coherence, collaboration and accountability.

The HLM3's strong emphasis on scaling up multi-stakeholder and multi-sectoral responses in the context of the 2030 Agenda provides an opportunity to identify implementation challenges to the realization of the high-level NCD commitments and propose innovative collaborative solutions.
