## BOKI Industries a.s.

Contact Person: Alice Vilímová  
Tel: +420 770 111 073  
E-mail: [alice.vilimova@bokigroup.eu](mailto:alice.vilimova@bokigroup.eu)  
[www.bokigroup.eu](http://www.bokigroup.eu)

BOKI Industries a.s. manufactures and supplies for its customers **components made from various types of metal materials**. The most modern technology and excellent know-how is used in the field of **laser cutting, perforation, folding, welding, grinding, metal fitting, assembly work, foaming and surface treatment**. Our company has an extensive network of sub-contractors available which enables to satisfy practically all of our customers' requirements in the range of deliveries of metal components. BOKI Industries a.s. also has plenty of knowledges and experiences concerning construction, technological work, development and testing of new products for the purpose of optimising their production. The company has been certified by ISO 9001, DIN EN 15085-2 and level CL1 – welding for rail vehicles. BOKI Industries a.s. also offers manufacturing and assembly of final products. It is our goal to be a reliable and flexible partner for all our clients.

## Dendera a.s.

Contact Person: Žaneta Beníšková  
Tel: +420 513 035 951  
E-mail: [beniskova@dendera.cz](mailto:beniskova@dendera.cz)  
[www.dendera.cz](http://www.dendera.cz)

Dendera a.s. is focusing on production of **metal sheets (by laser cutting, bending..)** and **weldments, including CNC-machining and surface treatment (for example: zinc coating, galvanized, powder coating, komaxit)**. Our company has 48 employees and our annual turnover is 3 mil. EUR. 65% of our production is exported. Every year we produce 50.000 types of products out of which about 1/3 is repeated production.

Our long experience will help you to reduce the price of needed components and keep the same or even higher quality of final products. Our company holds the certificate ISO 9001. Among our current long-term customers belong e.g. VMI Holland b.v., Epe (Netherlands), DISA Industries A/S, Taastrup (Denmark) or Wagner Maschinen-und Vorrichtungsbau GmbH (Germany).

# DIOSS NÝŘANY A.S.

Contact person: Kateřina Kyrálová  
Mobile: + 420 378 017 491  
E-mail: [k.kyralova@dioss.cz](mailto:k.kyralova@dioss.cz)  
[www.dioss.cz](http://www.dioss.cz)

Dioss Nýřany a.s. is a traditional Industrial manufacturing plant with a history counting 145 years. Our advanced machine equipment together with dynamic production systems allow Dioss to serve high-end clients and bring them high quality products. Our customers are f.e.: Faiveley (railway A/C housings), Evobus (automotive parts), Rational (food industry piping), Air Power (industrial compressor housings), Bomag (construction machineries), Doosan, AEG, EATON, Terex, and others. Among the core industries we supply: **machine parts, electrotechnics, construction, transport, automotive industry, food and chemical industry** and many others. **Materials used: cold steel, stainless steel, aluminium, copper and special purposes materials.** Dioss is located 180km east to Nuernberg and 100 km west to Prague. 500+ employees.

## HTP s.r.o.

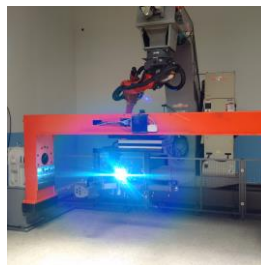

Věra Hanzlová – Business Development Manager  
Tel.: +420 565 432 825  
E-mail: [hanzlova@htpcr.cz](mailto:hanzlova@htpcr.cz)  
[www.htpcr.cz](http://www.htpcr.cz)

FINDING THE RIGHT TECHNOLOGICAL SOLUTION IS OUR MOTIVATION FOR SUCCESSFUL COOPERATION. Since 1996 the company HTP s.r.o. has focused its business activities in the area of custom manufacturing. During the evaluation we can prove the certification according to standards ISO 9001, ISO 14001, IATF 16949, ISO 3834-2, EN 15085-2 and ISO 13485.

HTP offers wide range of services:

- Sheet Metal Works
- Robot Welding
- Pressing
- High Precision Machining
- High-End Fastening Technologies
- Powder Coating
- Surface Finishing and Heat Treatments
- Production of Rubber and Plastics
- Assembly

HTP builds on these bases:

- Quality and Know-how
- Quick Response Manufacturing
- Low cost
- Excellent logistics

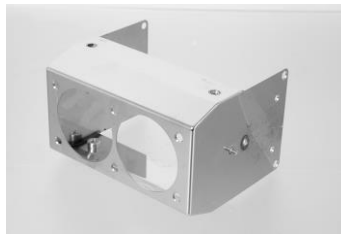

## KLEMAT CZ s.r.o.

Contact person: Jiří Matušík  
Tel.: +420 608 770 335,  
E-mail: [jiri.matusik@klemat.cz](mailto:jiri.matusik@klemat.cz)  
[www.klematcz.cz](http://www.klematcz.cz)

Established in 1991, KLEMAT CZ s.r.o. has grown into a successful subcontract provider specializing in **small and medium size steel products manufacturing**. We are dedicated to provide high quality parts and components to suit all our customer's needs and engineering demands. Our goal is to offer a one-stop-shop service through continuous investment in new technologies. The in-house manufacturing service portfolio therefore covers wide range of processes: **1. CNC technologies – laser tube and sheet cutting, punching, water jet cutting, sheet and tube bending, milling and turning. 2. Welding of mild and stainless steel, as well as aluminum alloys, robotic welding. 3. Surface treatment – blasting, acid pickling, electrochemical polishing, phosphating and powder coating. 4. Assembly and packaging.** We have the experience and capability of manufacturing a wide variety of products in volumes from prototypes to full production batches. Our production covers a whole range of sectors such as food, electronics, lighting, chemical, agriculture, construction, water treatment, car, etc. The company works mainly on the European market with the aim to produce high quality parts with short delivery terms at competitive costs. In order to improve the organizational performance and its ability to always supply the goods and services at the highest standards we have implemented and are certified with both ISO 9001-14001 TUV SUD

## PROMET GROUP a.s.

Contact Person:  
Ing. Jan Sternadel MBA, Sales Director  
e-mail: [jan.sternadel@prometczech.cz](mailto:jan.sternadel@prometczech.cz),  
tel.: + 420 597 153 327  
web: [www.prometczech.cz](http://www.prometczech.cz)  
[www.prometgroup.eu](http://www.prometgroup.eu)

The focus of PROMET GROUP is in the area of Metallurgy, Machinery, Engineering and Services.

- **METALLURGY:** Our companies supply the European foundries and steelworks with the raw materials and represent foundry and forge production
- **MACHINERY:** Our companies are focused on the sub supplies for the automotive, forestry or agriculture industry, and also construction supplies for the metallurgy business
- **ENGINEERING:** Companies in this segment are focused on projection, production, assembly and commissioning of technologies and constructions
- **SERVICES:** Companies in group are representing also logistics, facility management or other companies of supportive character for our main segment

# LASER CENTRUM CZ s.r.o.

Contact Person: Lenka Majerová

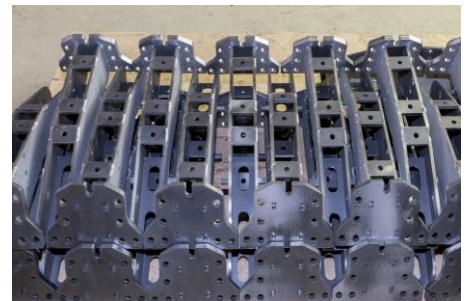

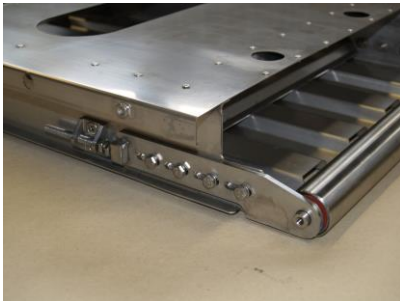

Tel: +420 777 576 319

E-mail: [ved.obchod@lasercentrumcz.cz](mailto:ved.obchod@lasercentrumcz.cz)

[www.lasercentrumcz.cz](http://www.lasercentrumcz.cz)

Company LASER CENTRUM CZ, s.r.o. is a family-owned company, located in the north of the Czech Republic, very close to Germany and Poland, with a very good transport access. On 3.500 m<sup>2</sup> of total production space equipped with the highest quality machines, a wide range and diversity of tools and a sophisticated system of production planning we produce a wide range of different products using following technologies: **laser cutting, bending, milling, turning, welding, plate bending, wet painting, manufacturing of complete metal parts inclusive assembly.** We are proud to have enviable reputation for delivering of highest quality for cost effective prices. Our products are mostly delivered to different manufactures of machinery and industrial equipment, agriculture machinery, handling equipment, Subways and urban transport makers. Among our customers belong such important companies as Trumpf, Bombardier, Benteler Maschinenbau, Mahle Behr

## ZPS – SLÉVÁRNA, a.s.

Kontakt: Ing. Katerina Kolarova

tel. +420 577 532 308 / +420 602 716 873

email: [kolarova.k@sl.zps.cz](mailto:kolarova.k@sl.zps.cz)

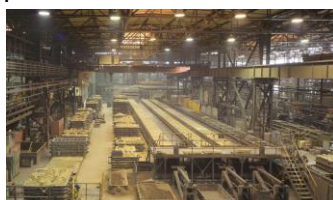

[www. http://www.sl.zps.cz/](http://www.sl.zps.cz/)

ZPS provides all the stages of casting production:

- pattern construction in the own pattern shop,
- technical and material consultancy,
- casting materials: grey, ductile, vermicular iron,
- casting weight from aprox. 30 kg up to 12 000 kg,
- series and low volume production,
- rough or final machining incl. certificates and inspection reports,
- thermal treatment, painting, transport to our customers.

Internal mechanical and chemical lab provide a fully professional services and material consulting. Our customers are producers of machinery and equipment for various sectors; in particular machine tools, forming, textile, paper, plastic and food-processing machines, machinery for shipping, energy, transport and other industry.

# SpoluWorks Perfecta

Contact Person: Ota Horák  
Mobile: + 420 604 475 649  
E-mail: [ota.horak@componentaperfecta.cz](mailto:ota.horak@componentaperfecta.cz)  
[www.componentaperfecta.cz](http://www.componentaperfecta.cz)

**Precise machining of complex parts** with hard-to-please process requirements for customers from most demanding industries. Our products fly in the most popular passenger airplanes or drive on Mars in the MarsRover. From modern CAD/CAM software to latest Japanese CNC machines (Mazak, Mori Seiki) to Mitutoyo coordinate measuring machines. Our production is driven by advanced information system ERP Helios, which thanks to the ideal synchronisation of capacitive production inputs enables short delivery times. ISO 9001 is a matter of course and we are preparing the implementation of EN9001.

If you are looking for a **“problem solver and cost reducer”** in the area of – not just – precision machining, our family business is ready to offer you its skills and experience.

## TVARMETAL s.r.o.

Contact Person: Josef Bárta  
Mobile: +420 608 847 136  
E-mail: [barta@tvarmetal.cz](mailto:barta@tvarmetal.cz)  
[www.tvarmetal.cz](http://www.tvarmetal.cz)

- Wide range of **tube bending** technology
- Wide range of welded and assembled parts
- Own design and production of tools and forming machines
- Pipe thermal Insulation
- Development cooperation with our customers for cost savings
- More than 50 000 exhaust and aspiration pipes kits since 2007
- Wide range of products
- Experience with testing and external testing institutions
- Capability and experience also of low and high volume applications
- Quality standard IATF16949 in progress

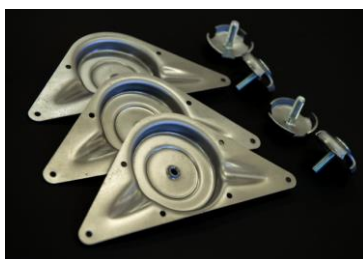

## DRUPOL

Contact Person: Martin Sprynar, CEO  
Telefon: +420 731 131 313  
Email: [sprynar@drupol.cz](mailto:sprynar@drupol.cz)

DRUPOL was established in 1935 with its seat in Hrade Králové. Thanks to a new large production facility in Městec Králové our traditional production based mainly on sheet metal forming on eccentric presses and welding was extended by several new modern technologies (bending of wire, tubes and laser cutting). We are able to cover a wide range of orders according to customer requirements. Mainly, we produce parts for the automotive industry, e. g. the components for roof racks, exhaust components and battery clips. Furthermore, we produce shrink rings, stainless ashtrays for garden, fireplaces, gastronomy products, furniture components, metal frames for hospital beds and other products according to customer's technical specification. We also deal with the production of ponds drains, bicycle carriers, wireframe seats, wire transport and handling trolleys or promotional stands and boards. We process metals, ordinary steel and stainless steel. We are certified according to ISO 9001 and ISO 14001 standards.

## CZECHTRADE Scandinavia

Contact Person: Vojtěch Helikar  
Mobile: +46 707 640 353  
E-mail: [vojtech.helikar@czechtrade.cz](mailto:vojtech.helikar@czechtrade.cz)  
[www.czechtrade.se](http://www.czechtrade.se)

CzechTrade Scandinavia is **the Nordic branch of the national export promotion organization** aimed at developing international trade and mutual cooperation between Czech and nordic entities. The agency is also an official contact partner for those foreign companies looking for qualified Czech-based suppliers of products, providers of services . • full information services • location of Czech suppliers • information about doing business in the Czech Republic • introduction to proven Czech suppliers • presentation of Czech companies at foreign trade shows • establishing B2B meetings • **finding suitable business partners • assistance with local outsourcing.**
