Czech export bank

www.ceb.cz

Czech Export Bank (the "CEB") is a specialised, directly and indirectly state-owned banking institution. CEB's mission is to support Czech exports and the awareness of the Czech Republic as a well-established international exporter, and thus promote the overall competitiveness of Czech products throughout the world. CEB focuses on financial services related to exports. CEB has many years of experience in financing major export transactions of Czech exporters, as well as financing export contracts for smaller units or partial deliveries. Currently, it is foreign buyers - Czech exporters' partners - to whom most CEB's products are being disbursed, and for whom Czech goods and services are becoming attractive, not only due to their quality and reasonable prices. All CEB's activities are in full compliance with the rules of WTO, the relevant recommendations of OECD and EU directives.

EKOTECHNIK Czech, s.r.o.

www.ekotechnik.cz

Ekotechnik Czech established in 1990. Operating brand name is Solar Kit.

Company is focused in renewable energy sector and has own facilities in following regions:

- Central and East Europe (Czech Republic, Hungary, Romania, Slovakia, Ukraine)
- Middle East region (UAE, Saudi Arabia, Oman...)
- India

Company activities, products and services:

CINK

<http://cink-hydro-energy.com/en/homepage/>

CINK Hydro – Energy k.s rank among the leaders in deliveries of technology for small and medium-sized hydropower stations. The goal of the development team of CINK Hydro-Energy is to change water potentials together with their customers all over the world into profitable and environmentally-friendly sources of energy. CINK Hydro – Energy k.s is one of the few companies in the world using the know-how that is necessary for the realization of technically perfect deliveries of all important types of turbines, such as the Crossflow, Kaplan, Pelton and Francis turbines, up to a capacity of 7 MW per unit. Besides that, CINK Hydro-Energy specializes in the installation of hydropower stations in drinking water systems and holds several licences for that purpose. Each of our Hydro Turbines is tailor-made for a specific purpose and

guarantees:

1. High efficiency
2. Extremely long service life
3. High operational safety
4. Minimum maintenance requirements
5. Low operating costs

6. Perfect customer care prior to and following the purchase, multilingual team and ISO 9001:2001 + ISO 14001:2004 certification. This company also provides solutions for other industrial applications.

ALINZ

<http://alinzbuyinghouse.com/>

With technology derived from the Czech Republic, portable petrol pumps had made their presence in India. Cost-effective and easy to install in two hours, portable pumps can come handy in hilly regions, rural areas and urban areas where land is at premium. The technology from Petrocard, a Czech company, is being brought to India by Alinz Group India, an electronics company based in Delhi. Portable petrol pumps are self-service dispensing machines for various types of fuel like petrol, diesel, kerosene and at a later stage CNG and LPG. Payments are accepted through credit or debit cards, electronic wallet and there would not be any cash transaction. The device consists of a tank capacity of 9,975 litres to 35,000 litres with 220v inbuilt power back up. For tracking and safety, camera, GPRS system, satellite internet communications has been facilitated. The machine is built keeping in mind health, safety, environment and fire protection system. The allotment and location will be decided by the public sector oil companies along with State governments as per their existing policies. Company plans to supply nearly 8,000 portable petrol pumps over the next five or six years. Each such pump would require an investment of Rs. 90 lakhs to Rs. 1.20 crore for which banks can also provide loans. As the machine is portable and meets emergency needs at a location, petroleum products can easily reach rural areas and farmers and entrepreneurs can benefit from it. Presentations have been made to Indian Railways, Oil Marketing companies, State government and other authorities in the country. The company also plans to establish the manufacturing units in at least four States with a total investment of about Rs. 1600 crores.

BAC Holding

www.baclaboratories.com
