GOLDEN IDET 2021

Competition for the best innovative exhibits

Categories:

- military and security equipment
- military and security communication and information technologies
- military and security logistics and services
- training and preparation of military and police professionals

Andrej Babiš, Prime Minister of the Czech Republic

IDET has made an incredible move forward, which is why it rightly ranks among the largest events of its kind in Europe today. I think this fair is also important for our citizens, as they can see where our armed forces and security are heading.

Lubomír Metnar, Minister of Defence of the Czech Republic

IDET has long been one of the largest European trade shows of defence technologies. The proof is the rich participation of foreign companies and government representatives. In today's interconnected world, Czech companies cannot do without foreign partners and the venue of the fair is an ideal place to arrange a new cooperation or develop an existing one.

Peter Hultqvist, Minister of Defence of Sweden

Sweden and the Czech Republic have great relationships and have been working closely together in the defence sector for 30 years. The Czech Innovation Strategy up to 2030 gives space for joint projects also in other areas and I believe that our cooperation will continue to grow and will be beneficial for both sides.

Jiří Hynek, President of the Defence and Security Industry Association of the Czech Republic

I feel satisfied that the Czech defence and security industry once again leaped technologically forward. Globally we have nothing to be ashamed of, which we can already see on the fact that we export 90 percent of production and we beat renowned world manufacturer on international markets. IDET is proof of that.

Jiří Kuliš, CEO, BVV Trade Fairs Brno

The accession to NATO 20 years ago gave IDET a completely new impetus. IDET is nowadays a well-established presentation platform for international industry cooperation in the defence and security industry.

Awards ceremony of the Golden IDET 2019 competition

EXHIBITORS' QUOTES

Czechoslovak Group a.s., Lukáš Novotný, Marketing Manager

We rate the fair as very successful, we were visited by many trade partners, both existing and new, and several delegations from around the world.

General Dynamics European Land Systems, Petra Paminger, International Business and Services Manager

Our display attracted large amounts of visitors every day. I have never seen such interest at other fairs; Brno and IDET were truly unique in this respect. Our sales representatives also arranged several new trade meetings here with international outreach.

BAE CZ, Zdeněk Soudný, spokesperson

We attend IDET regularly and it is a great opportunity to meet people from the industry, representatives of the public sector and trade public.

Rheinmetall, Oliver Mittelsdorf, Senior Vice-President

The atmosphere of the fair was very good. I'm absolutely exhausted because we had a lot of meetings in the last two days. A lot of visitors came to, who were interested in our products. I really enjoy being here.

Saab Technologies, Markéta Maršálek Čadková, Communication Manager for Central and Eastern Europe

The fair was very successful for us. We are glad we could present a wide portfolio of our company at IDET in Brno.

Zetor Engineering s.r.o., Pavel Bušta, Project Manager

We appreciate the fact that BVV Trade Fairs Brno pushes the professional level of IDET constantly higher. We simply couldn't miss this opportunity to present our new tactical vehicle. Throughout the fair we had meetings with potential domestic and international industry partners. We will surely arrive at the next fair in full force again.
