

Czech Technologies for the Prevention, Detection and Protection Against CBRN Disasters

Czech Embassy Bucharest, March 11, 2024, from 14:00 to 17:00

COMPANY / WEB	COMPANY PROFILE
Security Bunkers Alliance www.securitybunkersalliance.com	
VZDUCHOTECHNIK, s.r.o. www.vzduchotechnik.cz	Czech manufacturer of CBRN-air-filter-ventilation systems that are utilized in shelters and bunkers. All units are certified for military use, the key components comply with NATO standards. We also supply state-of-the art virucidal and bactericidal filters based on cutting edge nanotechnology as a protection against biological threat for various industry segments. Beside military equipment, we also offer a full range of exhausters for industrial use.
TARGO-TEBRIX a.s. www.targo-tebrix.com	Czech company primarily engaged in the construction of private and public underground anti-nuclear shelters, as well as the revitalization of existing civil defense shelters, and related technologies, especially water treatment plants (filtering equipment), air filtration and recuperation units for shelters, as well as armored anti-press doors. The company also deals with the security of schools, which is mainly replacement or covering of existing doors to classrooms, camera systems, entrance turnstiles and methodology of behavior in the event of an extraordinary attack. Last but not least, the company also deals with military supplies such as security checkpoints or mobile container assemblies.
IBIPC a.s. https://www.ibipc.com	Defence industry, critical infrastructure, civil defence. A leading supplier of security solutions for the defence industry, critical infrastructure and civil defence that protect people, business and society. A comprehensive range of safety elements certified according to NATO STANAG 2280:2016 military standards for ballistic, blast and shrapnel resistance of high values, made of UHPFRC - ULTRA HIGH PERFORMANCE FIBER REINFORCED CONCRETE composite. A comprehensive range of two dozen globally unique HI-TEC mobile and modularly assembled safety elements, with the ability to respond quickly to defined threats in the event of a terrorist attack and sabotage, hybrid attack and asymmetric conflict, attack by professional army, emergency situation, state of national emergency and state of war.
HENGST Air Filtration Czech Republic s.r.o. www.delbag.net	Supplier of technologically leading filtration systems in the areas of plant and mechanical engineering, industrial filtration, hydraulics, life science and health care. The tailor-made solutions are used in medical clean rooms, air conditioning systems, cleaning devices, industrial plants, power tools and robots. The company offers a comprehensive range of products – from air filters and filters for machine tools to systems for oil mist filtration, molecular filtration and hydraulic filtration.
Czech NBC Team	
EGO Zlín, spol. s r.o. www.egozlin.cz	EGO Zlín is a well-established manufacturer of systems for solving emergency situations arising as a result of natural and human-instigated disasters. Our diverse product line includes rescue and first aid products for pre-hospital care, system of biological protection and complex solutions to be instantly used where necessary, such as mobile medical workplaces or decontamination units. We cater to the public sector, serving hospitals, first responders, military healthcare and logistics units, and others.
Oritest spol. s r.o. www.oritest.cz	ORITEST belongs to a group of regular suppliers of products and services for specialized NBC forces, both in the Czech Army and in all civil parts of integrated rescue systems. ORITEST cooperates with the new established company ORITEST GROUP. ORITEST GROUP designs CBRN Solutions and makes R&D in new chemical detectors mainly with IMS Technology. Together with ORITEST they form a strong team which offer complete CBRN Solutions „Everything from simple CWA Detection Paper to Reconnaissance Vehicles. Our transformation of know-how originally focused on the military sector and now we have included the civil sector and protection of the environment.
POHORELEC, s.r.o. www.cbrn-filtroventilace.cz	Czech producer of CBRN filter-ventilation for the collective protection of people against bacteriological, chemical and radioactive contamination. Filtration efficiency 99,999% MPPS. CBRN devices suitable for areas designed for civil protection of people, covers, bunkers, containers, field hospitals, etc.
