

An aerial night photograph of the Masaryk University campus. The buildings are illuminated with warm orange and yellow lights, contrasting with the dark blue twilight sky. In the background, the city of Brno is visible, with its lights creating a glowing horizon. The text 'MASARYK UNIVERSITY' is overlaid in large, white, bold, sans-serif capital letters across the center of the image.

MASARYK UNIVERSITY

MASARYK UNIVERSITY

Brno | Czech Republic

Who we are

We educate.

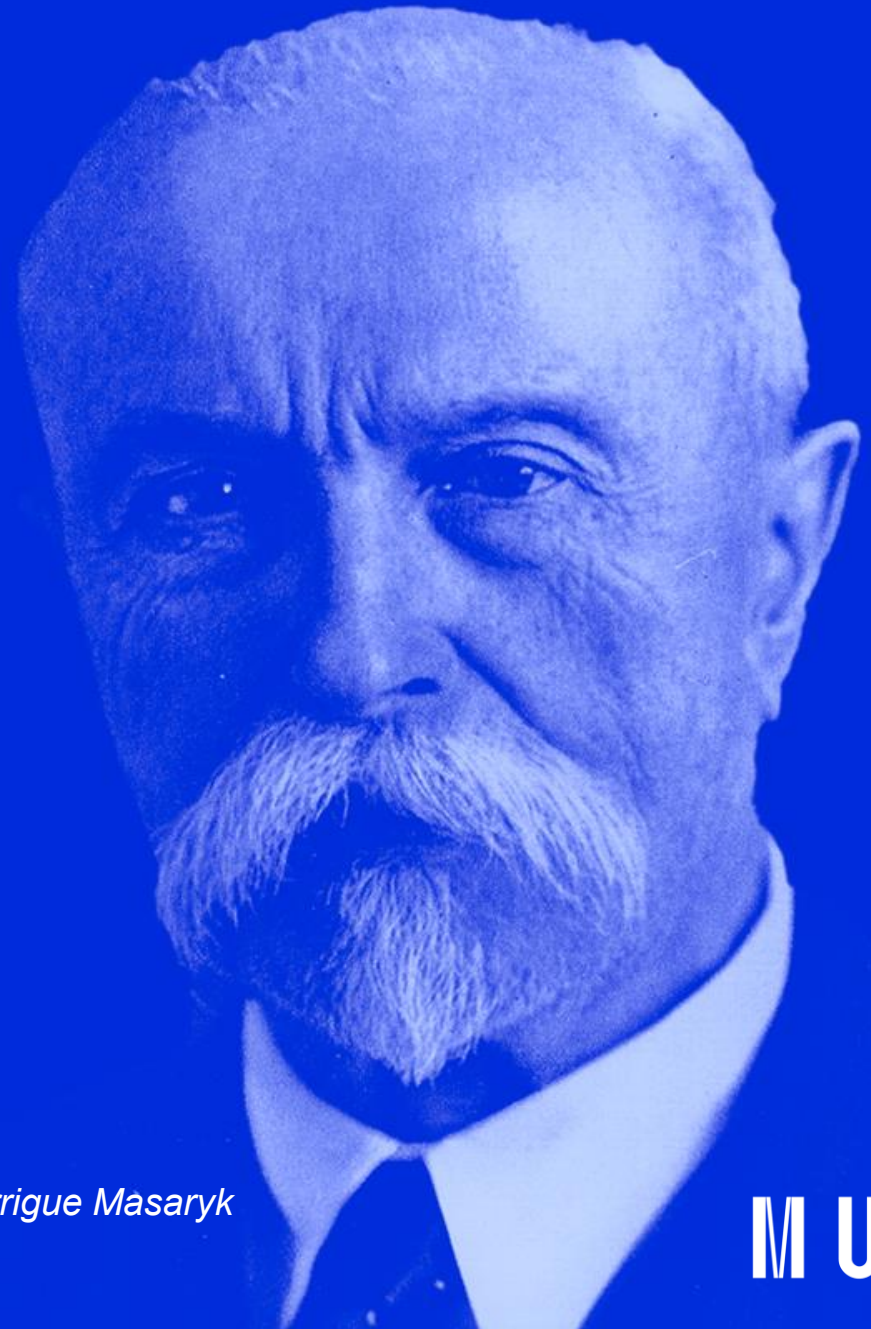

We conduct research.

We respond to social challenges.

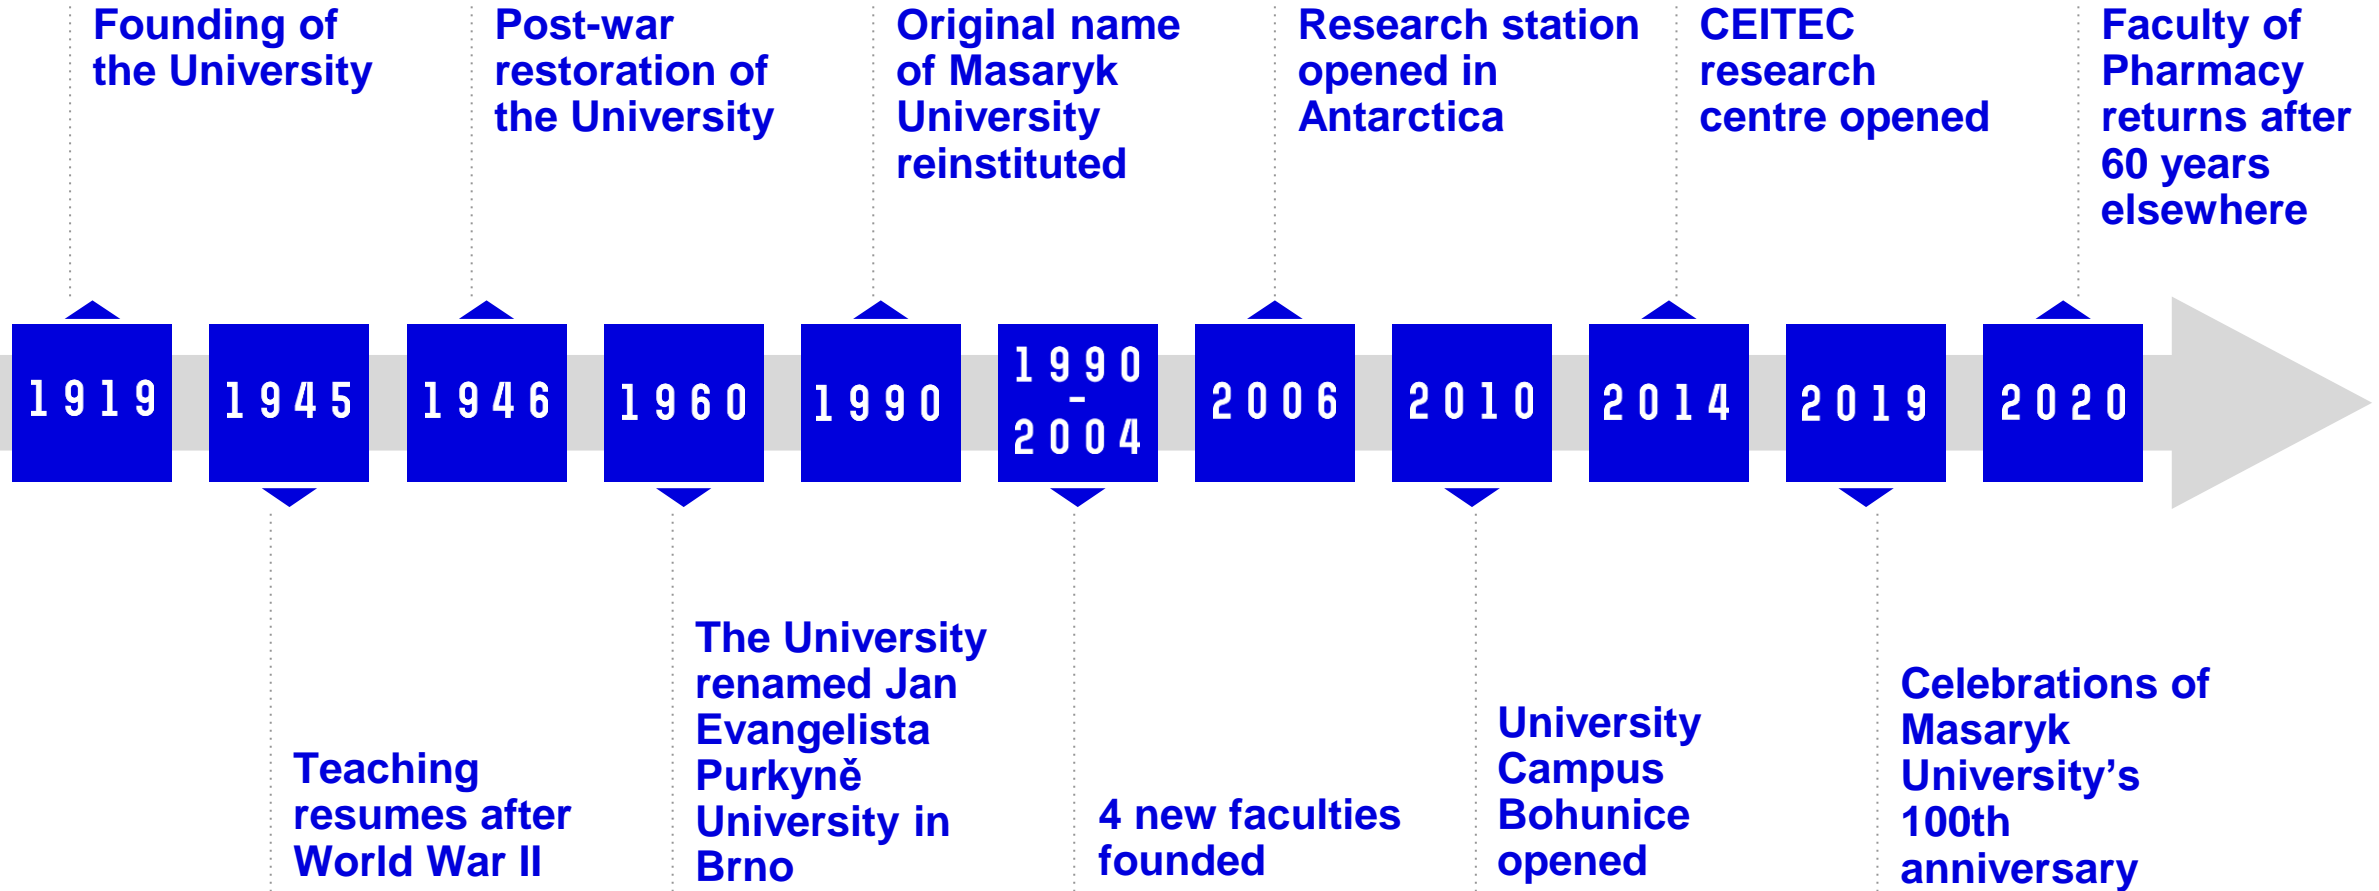

Since 1919 we've been changing
the world around us for the better.

Tomáš Garrigue Masaryk

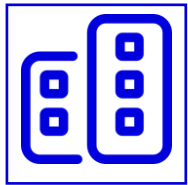

MUNI

The history of Masaryk University

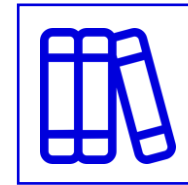

The year at Masaryk University

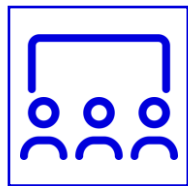

10
faculties

35,000+
students

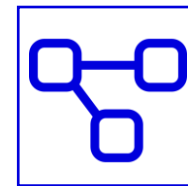

5,500+
publications

150+
programmes

7,000+
graduates

1,500+
projects

Teaching and researching at the largest university complex in Central Europe

We have built a new home for three faculties and two research centres

M²

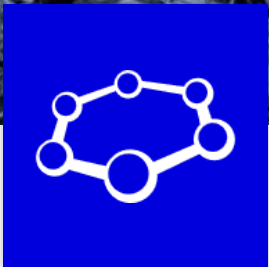

We have constructed 130,000 m² of teaching and research space

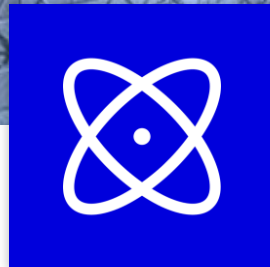

In building the University Campus, we have created a new attractive neighborhood

M U N I

Building a science and research centre

We operate the CEITEC research centre

We focus on the life sciences, advanced materials, and nanotechnology

We attract prominent international scientists to Brno and produce new generations of researchers

Internationally focused

We provide 7,000 international students an education and employ 300 international staff members

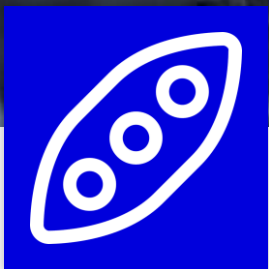

20 % of our accredited programmes are taught in English

We have signed 1,600 partnership agreements with universities all over the world

Caring for the legacy of Gregor Johann Mendel

We operate the Mendel Museum, which tells the story of this genius and the principles of genetics

The J. G. Mendel Research Station in Antarctica honours Mendel's meteorological work

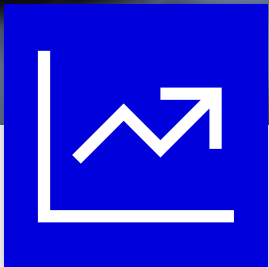

We invite prominent international scientists and Nobel Prize winners to give Mendel Lectures

Science and research

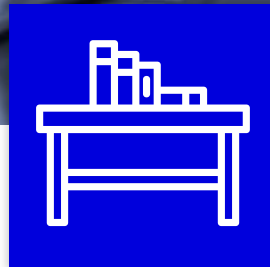

MUNI

We are among the top of the EU13 in Horizon Europe

We are the leaders of Czech scientific institutions in obtaining funding from the Horizon Europe programme

A total of 14 ERC Grants have been awarded to our scientists since 2013

We also support research through the internal Grant Agency of Masaryk University

Brno: A science hub

Brno is one of the most progressive science and innovation centres in Europe

4 %

4 percent of all employed people in the region work in research and development

4 centres of excellence and 11 application-focused regional centres are located in the region

Grant Agency MU (GAMU)

Prestigious grant, the **MUNI Award in Science and Humanities** (MASH):
This award aims to bring excellent and successful external researchers to Masaryk University and to offer them such conditions that they are motivated to stay, work at Masaryk University, and to attain exceptionally high-quality research results on a long-term basis.

MASH is intended for experienced researchers who were not employed by Masaryk University in their main employment for the period of 5 years preceding the deadline of the call.

MASH StG/CoG is open to early career researchers provided that their employment relationship with Masaryk University has not exceeded 12 of the last 36 months (considering career breaks) at the deadline of the call.

Calls are open **until December 9th, 2024.**

Research Opportunities at MUNI

Come and work at Masaryk University in Brno, Czech Republic

Outstanding scientists from all research fields are invited to apply for a prestigious individual grant MUNI Award in Science and Humanities.

- An opportunity to conduct **independent research** at a **progressive university** in the Central European research and innovation hub
- 2 categories open: **MASH** with a budget of € 200 000 per year for 5 years; **MASH StG/CoG** with a budget of € 120 000 per for 4 years
- Laboratory and office space, welcome service, administrative support
- Open to **all domains** of Social Sciences & Humanities, Physical Sciences & Engineering, Life Sciences

Calls are open until **December 9th, 2024.**

Conditions are negotiated on the level of faculty departments. Get in contact with us to get started.

MUNI MED Internal Grant Agency

The aim of the Internal Grant Agency of Faculty of Medicine of Masaryk University (InGA) is to enhance the quality and prestige of research at MUNI MED, to increase its success in obtaining national and international prestigious grants, to increase the potential for practical application of research results, and to support internationalisation and sustainability of human resources in research.

Junior Research Group: to create conditions for new outstanding young scientists to establish their own research group. This form of support is therefore primarily intended for junior scientists with significant international experience.

Postdoc: The competition serves to attract experienced productive junior researchers with significant international experience and integrate them into already established research groups.

Postdoc & other open positions

We are looking for those who are not afraid to have ideas:
Come and work at a university with great facilities and ambitions.
We are looking for colleagues who are not afraid to pioneer new research directions, support students in finding their career direction and who live our values of innovation, integrity and inclusivity.
