# MEET THE WINES OF THE CZECH REPUBLIC

**The story and tradition of winemaking in the wine regions of the Czech Republic can be felt at every turn.**

Next to awe-inspiring modern wineries built by world-class architects, you will find cosy cellar alleys lined with historical wine cellars with elaborately painted facades, and old wine presses that have been restored and proudly displayed. Thousands of wine lovers visit our famous wine-related festivals and holidays every year and discover many traditional folk customs, carefully preserved for centuries. Wine in the Czech Republic is not just a favourite drink, for many it is a lifelong journey and love. Czech wine offers a wide range of experiences and flavours, with every bottle being completely different from the last. If you're looking for noble wines, a landscape dotted with lush vineyards, folk festivals and authentic wine cellars, the wine regions of the Czech Republic will welcome you with open arms.

The Czech Republic is divided into two main wine regions. The first is the Moravia Wine Region, which is located mainly in the South Moravian Region and boasts more than 17,000 hectares of vineyards representing 96% of the area of registered vineyards in the whole country. This region lies on the 49th parallel, just like the famous French wine regions of Champagne or Alsace and the best wine regions of Germany. The typical character of Moravian wines is determined by the region's very favourable climate, especially the alternation of warm days and cool nights in the final phase of grape ripening, which results in a greater amount of aromatic substances in the grapes. The most common grape varieties in South Moravia are Grüner Veltliner, Riesling, Müller Thurgau, and Welschriesling, while the most common red varieties are Blaufränkisch and St. Laurent.

## 認識捷克共和國的葡萄酒

在捷克共和國的葡萄酒產區，釀酒的歷史與傳統隨處可見。

在世界級建築師設計的現代化酒莊旁，您會發現充滿歷史氛圍的酒窖小巷，這些街巷上排列著裝飾華美的歷史酒窖和精心修復的古老葡萄壓榨機。每年都有成千上萬的葡萄酒愛好者前來參加我們著名的葡萄酒相關節日和慶典，並親身體驗保存數百年的傳統民俗文化。葡萄酒在捷克不僅僅是一種深受喜愛的飲品，對許多人而言，更是一場終身的旅程與愛好。捷克葡萄酒帶來多元的體驗與風味，每一瓶酒都與眾不同。如果您尋找的是高雅的葡萄酒、郁郁蔥蔥的葡萄園美景、民俗慶典和正宗的酒窖，那麼捷克的葡萄酒產區將以熱情的懷抱迎接您。

捷克主要分為兩大葡萄酒產區。第一個是位於南摩拉維亞地區的摩拉維亞葡萄酒產區，擁有超過 17,000 公頃的葡萄園，佔全國登記葡萄園面積的 96%。這個產區位於北緯 49 度，與法國著名的香檳和阿爾薩斯產區以及德國最好的葡萄酒產區同緯度。該地區極為有利的氣候條件造就了摩拉維亞葡萄酒的典型特徵，特別是在葡萄成熟期的最後階段，日夜溫差大的氣候使葡萄中積累了更多芳香物質。南摩拉維亞最常見的白葡萄品種包括綠維特利納 (Grüner Veltliner)、麗絲玲 (Riesling)、慕勒-圖高 (Müller Thurgau) 和威爾斯麗絲玲 (Welschriesling)，而紅葡萄品種則以藍佛朗克 (Blaufränkisch) 和聖勞倫特 (St. Laurent) 為主。

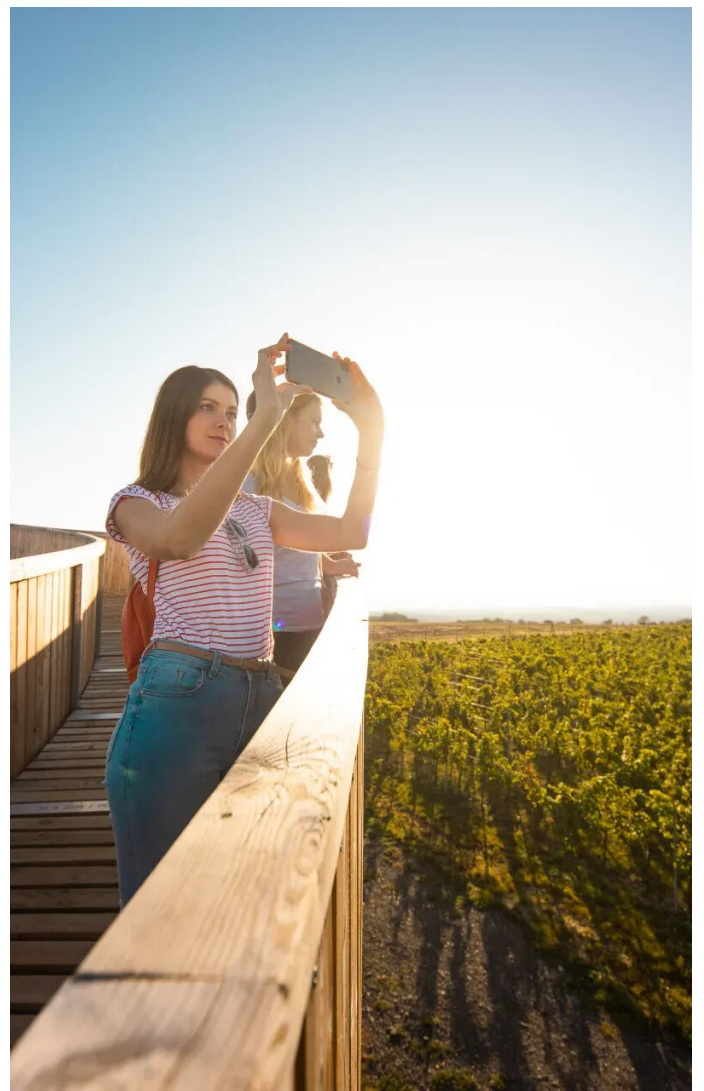

The second wine region of the Czech Republic is the Bohemia Wine Region. It is one of the more northern wine-growing regions of Europe, but the region is gaining in prominence as average temperatures rise. The varieties grown here differ slightly from those in Moravia. Burgundy varieties and Traminer are the best-performing varieties planted, but Müller Thurgau and Riesling are the most widespread. The cultivation of red wine varieties such as Pinot noir and St. Laurent also plays an important role here. The wine centres of Bohemia are the towns of Mělník, Kutná Hora and Litoměřice, but we also must not forget the capital city of Prague.

In total, there are almost 18,000 hectares of vineyards in the Czech Republic, which is on the one hand less than, for example, in neighbouring Austria with 48,000 hectares, but the Czech wine culture is no less diverse and vibrant. Most of the production in Bohemia and Moravia is made up of varietal white wines, but wine lovers both local and from abroad are increasingly discovering our red wines as well. In addition, the rising popularity of rosé and sparkling wines is also becoming more and more pronounced here, and even natural wines are represented by an extremely strong community of local winemakers and are well known all over the world.

第二個葡萄酒產區是波希米亞葡萄酒產區，它是歐洲偏北部的葡萄種植區之一。然而，隨著平均氣溫上升，該地區的重要性也日益提高。相較於摩拉維亞，波希米亞的葡萄品種略有不同。表現最佳的是勃艮第品種（Burgundy varieties）和塔明那（Traminer），而穆勒-圖高和麗絲玲則是最普遍的品種。此外，紅酒類型如黑皮諾（Pinot Noir）和聖勞倫特也佔有重要的地位。波希米亞的葡萄酒中心包括梅爾尼克（Mělník）、庫特納霍拉（Kutná Hora）和利托梅日采（Litoměřice）等城鎮，首都布拉格也涵蓋在內。

捷克總共有將近 18,000 公頃的葡萄園，雖然這個數字比鄰國奧地利的 48,000 公頃少，但捷克依然有多樣且活躍的葡萄酒文化。摩拉維亞和波希米亞的大部分生產都集中在白酒上，但當地及國際的葡萄酒愛好者對我們紅酒的興趣也在不斷增加。此外，粉紅酒和氣泡酒也越來越流行。自然酒在捷克也有一個極具影響力的當地釀酒師社群，並在全球享譽盛名。

THAYA vineyards are located in the wine region Znojensko, a region typical for its full-flavoured and fresh wines. It is the River Dyje or Thaya, which, through its thermoregulatory influence, together with the cold winds from the Bohemian-Moravian Highlands, gives the local wines their unmistakable spicy taste and fullness. Thanks to the granitic subsoil and the loess with a mixture of calcareous clays, the Riesling is particularly outstanding.

THAYA farms about 105 hectares of own vineyards located in the immediate vicinity of the winery and in the neighbouring wine-growing villages. The vineyards adjacent to the Podyjí National Park have been known since the ancient Romans for their unique sunny location.

Winery

**What's unique:** One of the most traditional brands for single-vineyard Welschriesling.

**Web:** [www.mikrosvin.cz/en](http://www.mikrosvin.cz/en)

## Short bio:

All wines from Mikrosvín Mikulov Winery are produced exclusively from its own grapes, which are harvested on 12 vineyard lines in the wine region Mikulovsko. The absolute top among the vineyards are the tracks Železná, Goldhamer, and Purmice.

The calcium rich soil in the Mikulov region give the wines a unique character of great spiciness and density by limiting the growth of the vines and concentrating their quality. The premium grape variety here is Welschriesling, alongside Grüner Veltliner, Riesling and Chardonnay. In recent years, new local varieties such as Pálava have been successful.

Winery Mikrosvín's philosophy of vine cultivation is based on a low load on the bushes, a gentle approach with a maximum limitation of chemical inputs. All the grape material is gently harvested at the appropriate time, the best grapes are harvested by hand. The grapes are then processed with the utmost care, production is based on the gravity approach. For the production of their wines, the special approach of the people is extremely important.
