DEFEA 2025 offers a unique platform to strengthen bilateral defense cooperation with Greece. The Czech Republic is proud to present a selection of innovative companies, advanced technologies, and industrial capabilities that reflect our commitment to international cooperation. Greece is a strategic partner, and this partnership will be further reinforced by the signing of a Memorandum of Understanding between the Defence and Security Industry Association of the Czech Republic (AOBP) and the Hellenic association SEKPY. This milestone opens new opportunities for collaboration, joint projects, and knowledge sharing in support of a stronger, more connected European defense base.

RNDr. Jiří Hynek

President of the Defence and Security Industry
Association of the Czech Republic

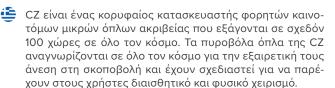

ABOUT AOBP

The Defence and Security Industry Association of the Czech Republic (AOBP), represents over 220 member companies that develop, manufacture, and trade with military equipment, dual-use, and civilian technologies. AOBP is the main contact point and partner for the defence and security industry in the Czech Republic for both foreign partners, as well as for Czech state authorities (mainly the MoD, MFA, Mol, and MIT). AOBP also signed memorandums of understanding with 20 similar associations from all over the world. The Czech defence and security industry is export-oriented, and export makes up around 90 percent of its production, so one of the main goals of AOBP is to help our member companies with pro-export activities. AOBP coordinates the participation of Czech companies in foreign international exhibitions and co-organises domestic international trade fairs and exhibitions. Embracing modernisation and innovation, AOBP actively supports research and development initiatives, forging partnerships with universities and research institutes. Moreover, AOBP's engagement extends to NATO and EU agencies, ensuring the Czech Republic's active participation in shaping defence policies and initiatives at the European and global levels.

TATRA – manufacturer of modern utility trucks

Tatra is a traditional Czech producer of medium and heavy trucks for mixed traffic on roads and in heavy terrain intended for armed forces, firefighters, rescuers and the civilian users at many markets since 1850. Tatra also cooperates with various partners on special military vehicles for NATO and non NATO forces.

Από το 1850, η Tatra, με έδρα την Τσεχία, παράγει φορτηγά μεσαίου και βαρέως τύπου για μικτή κυκλοφορία σε δρόμους και σε ανώμαλο έδαφος. Τα οχήματα προορίζονται για ένοπλες δυνάμεις, πυροσβέστες, διασώστες και πολίτες. Η Tatra εξάγει σε διεθνείς αγορές και συνεργάζεται με σειρά εταιριών για την παρασκευή ειδικών στρατιωτικών οχήματων για δυνάμεις του NATO και μη.
