

I. Czech Evaluation Plan 2025

1) Overview

A. Internal Evaluations	Number of evaluations = 0
B. External and Combined (internal + external) Evaluations:	Number of evaluations = 6
C. Joint Evaluations (with other donors, partners, international organisations)	Number of evaluations = 0

2) Particular Evaluations

EXTERNAL AND COMBINED EVALUATIONS								
No.	Target country	Sector / thematic priority + SDG	Name of project / programme	Coordinator	Implementor	Implementation period	Number of evaluated interventions (CZK)	Goals and use of evaluation
1	Georgia	Good governance	Implementation of the REACH and CLP regulations	CzDA	Dekonta, a.s.	2017-2022	CZK 17,760,300	The evaluation aims to identify the impacts of the project and the capacity built in the area of sound chemicals management by implementing EU environmental legislation into Georgian national legislation. The evaluation should also identify the advantages and disadvantages of implementing a similar type of project through public procurement as opposed to subsidies.
2	Ethiopia	Sustainable use of natural resources	<p>1. Study of natural phenomena threatening agricultural production in selected zones of SNNPR 2015-2017</p> <p>2. Finalisation of hydrogeological mapping of Ethiopia 2016-2019</p> <p>3. Geological and hydrogeological map compilation on a 1:1000 000 scale for the entire territory of Ethiopia– 2020-2023</p> <p>4. Sustainable landscape management in selected areas of Ethiopia based on geoscience mapping 2019-2024</p>	CzDA	<p>Projects No. 1,3 and 4: Czech Geological Survey</p> <p>Project No. 2: GEOTest, a.s.</p>	2015-2023	CZK 48,542,496	The evaluation aims to map the current and potential use of the outputs (digital maps). Within the broader context of the Czech Republic's activities in the field, the evaluation of these projects should suggest how to increase the practical use of the data (maps) in different sectors (water, agriculture, and environment) in the future. In addition, the evaluation will also address the issue of coherence and coordination between donors, including potential use or replication in the context of the Team Europe Initiative "Transboundary water management in Africa".

3	Cambodia	Health	Project: 'Czech perinatology hands to Cambodia'	CzDA	Vita et Futura Foundation	2021-2023	CZK 23,606,646	<p>The evaluation aims to verify sustainability and replicability of the project with a view to the development of a system solution. The project attempted to introduce new efficient systems of work in the maternity ward, supported by digitisation (3 applications developed - 2 for education, 1 for data collection). As the project faced some technical capacity constraints and cultural barriers in the implementation of new practices, it is also important to use evaluation to map the causes of problems in digitising healthcare and recommend how to prevent them. An essential part of the evaluation should also focus on coherence with the activities of other donors and coordination with them.</p> <p><i>Note: The recommendations from this evaluation may be reflected in the follow-up project launched in 2024.</i></p>
4	BiH	Inclusive social development	<p>Projects:</p> <p>1. Promoting the social inclusion of people with disabilities in Bosnia and Herzegovina</p> <p>2. My job - job opportunities for people with disabilities 2020-2023</p>	CzDA	People in Need	2016-2023	CZK 37,142,558	<p>The evaluation aims to verify the impact of the project on the long-term social inclusion of people with disabilities after the lapse of some time following the completion of the project, including the sustainability of the institutional changes introduced within the project and the lessons learned for further implementation in the country.</p>
5	Syria	Humanitarian and assistance	The Czech Republic's Reconstruction Programme in the Middle East Region - Evaluation of selected projects implemented in North-Eastern and North-Western Syria.	MFA (Development Cooperation and Humanitarian Assistance Department, Middle East and North Africa Department)	CARITAS Czech Republic, People in Need, ADRA, CARE Czech Republic	2021-2024	CZK 50,000,000	<p>The evaluation aims to map the outputs of long-term projects, especially their contribution to local stabilisation. The evaluation should also provide recommendations to ensure remote monitoring of these activities, and provide impetus for further activities.</p>
6	Different developing and developed countries	Supporting the implementation of the 2030 Agenda and the Sustainable Development Goals (SDGs), the so-called "PA2030" programme	Portfolio analysis of Czech embassy projects abroad under the "PA2030" programme.	MFA (United Nations Department)	Embassies of Czech Republic abroad	2019-2024 (reflecting the selection of 2025 projects)	CZK 2,645,000	<p>The evaluation should assess whether the Czech Republic has managed to successfully build on its past activities in individual countries and to make Czech sustainable solutions more visible. We would welcome recommendations on how to improve the programme in terms of its content, outputs and technical support.</p> <p>The official name of the PA2030 programme is "Projects of Czech embassies abroad implementing the sustainable development agenda officially adopted at the UN summit in New York on 25 September 2015 as part of the document Transforming our World: The 2030 Agenda for Sustainable Development.</p>
Note: In addition to the planned projects, it is possible to conduct ongoing evaluation with the programme/project managers of Czech FDC and HA subject to the need and international offer.
