

# Czech Aid in Cambodia

The Czech Republic and Cambodia have historically very good relations and a tradition of mutual cooperation, especially in the field of health and education. The Czech Republic's official development assistance (ODA) has been concentrated in particular on projects that bring direct benefits to specific target groups.

## HEALTH

Reduce preventable neonatal mortality and mortality in children under five years of age and to reduce maternal mortality.

## EDUCATION

Equal access of women and men to good quality, affordable and inclusive education, with main focus on technical, vocational and higher education level.

# Czech Aid in Bosnia and Herzegovina

- Access to drinking water and wastewater management
- Circular economy, waste treatment
- Strengthening transparent and accountable institutions
- Promoting human rights
- Social inclusion
- Strengthening resilience, mine clearance, cybersecurity

One of the largest projects is the expansion and reconstruction of the drinking water treatment plant in the municipality of Teslić. The project will ensure access to safe water for 38 thousand inhabitants. The supply of Czech technology will bring the city a modern drinking water treatment plant. The construction part of the project is financed through a loan from the European Investment Bank. The development of the capacities of the local municipal enterprise is provided by the United Nations Development Programme. Thanks to these partnerships, the Czech Republic can implement even the most demanding projects.

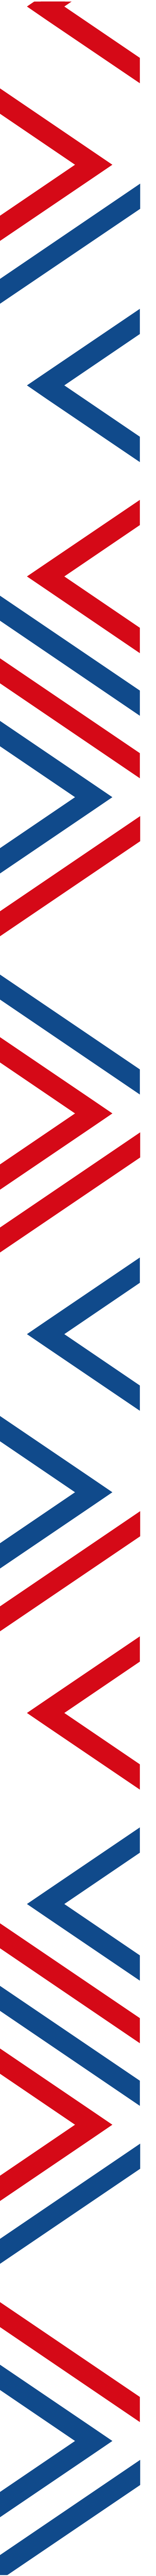

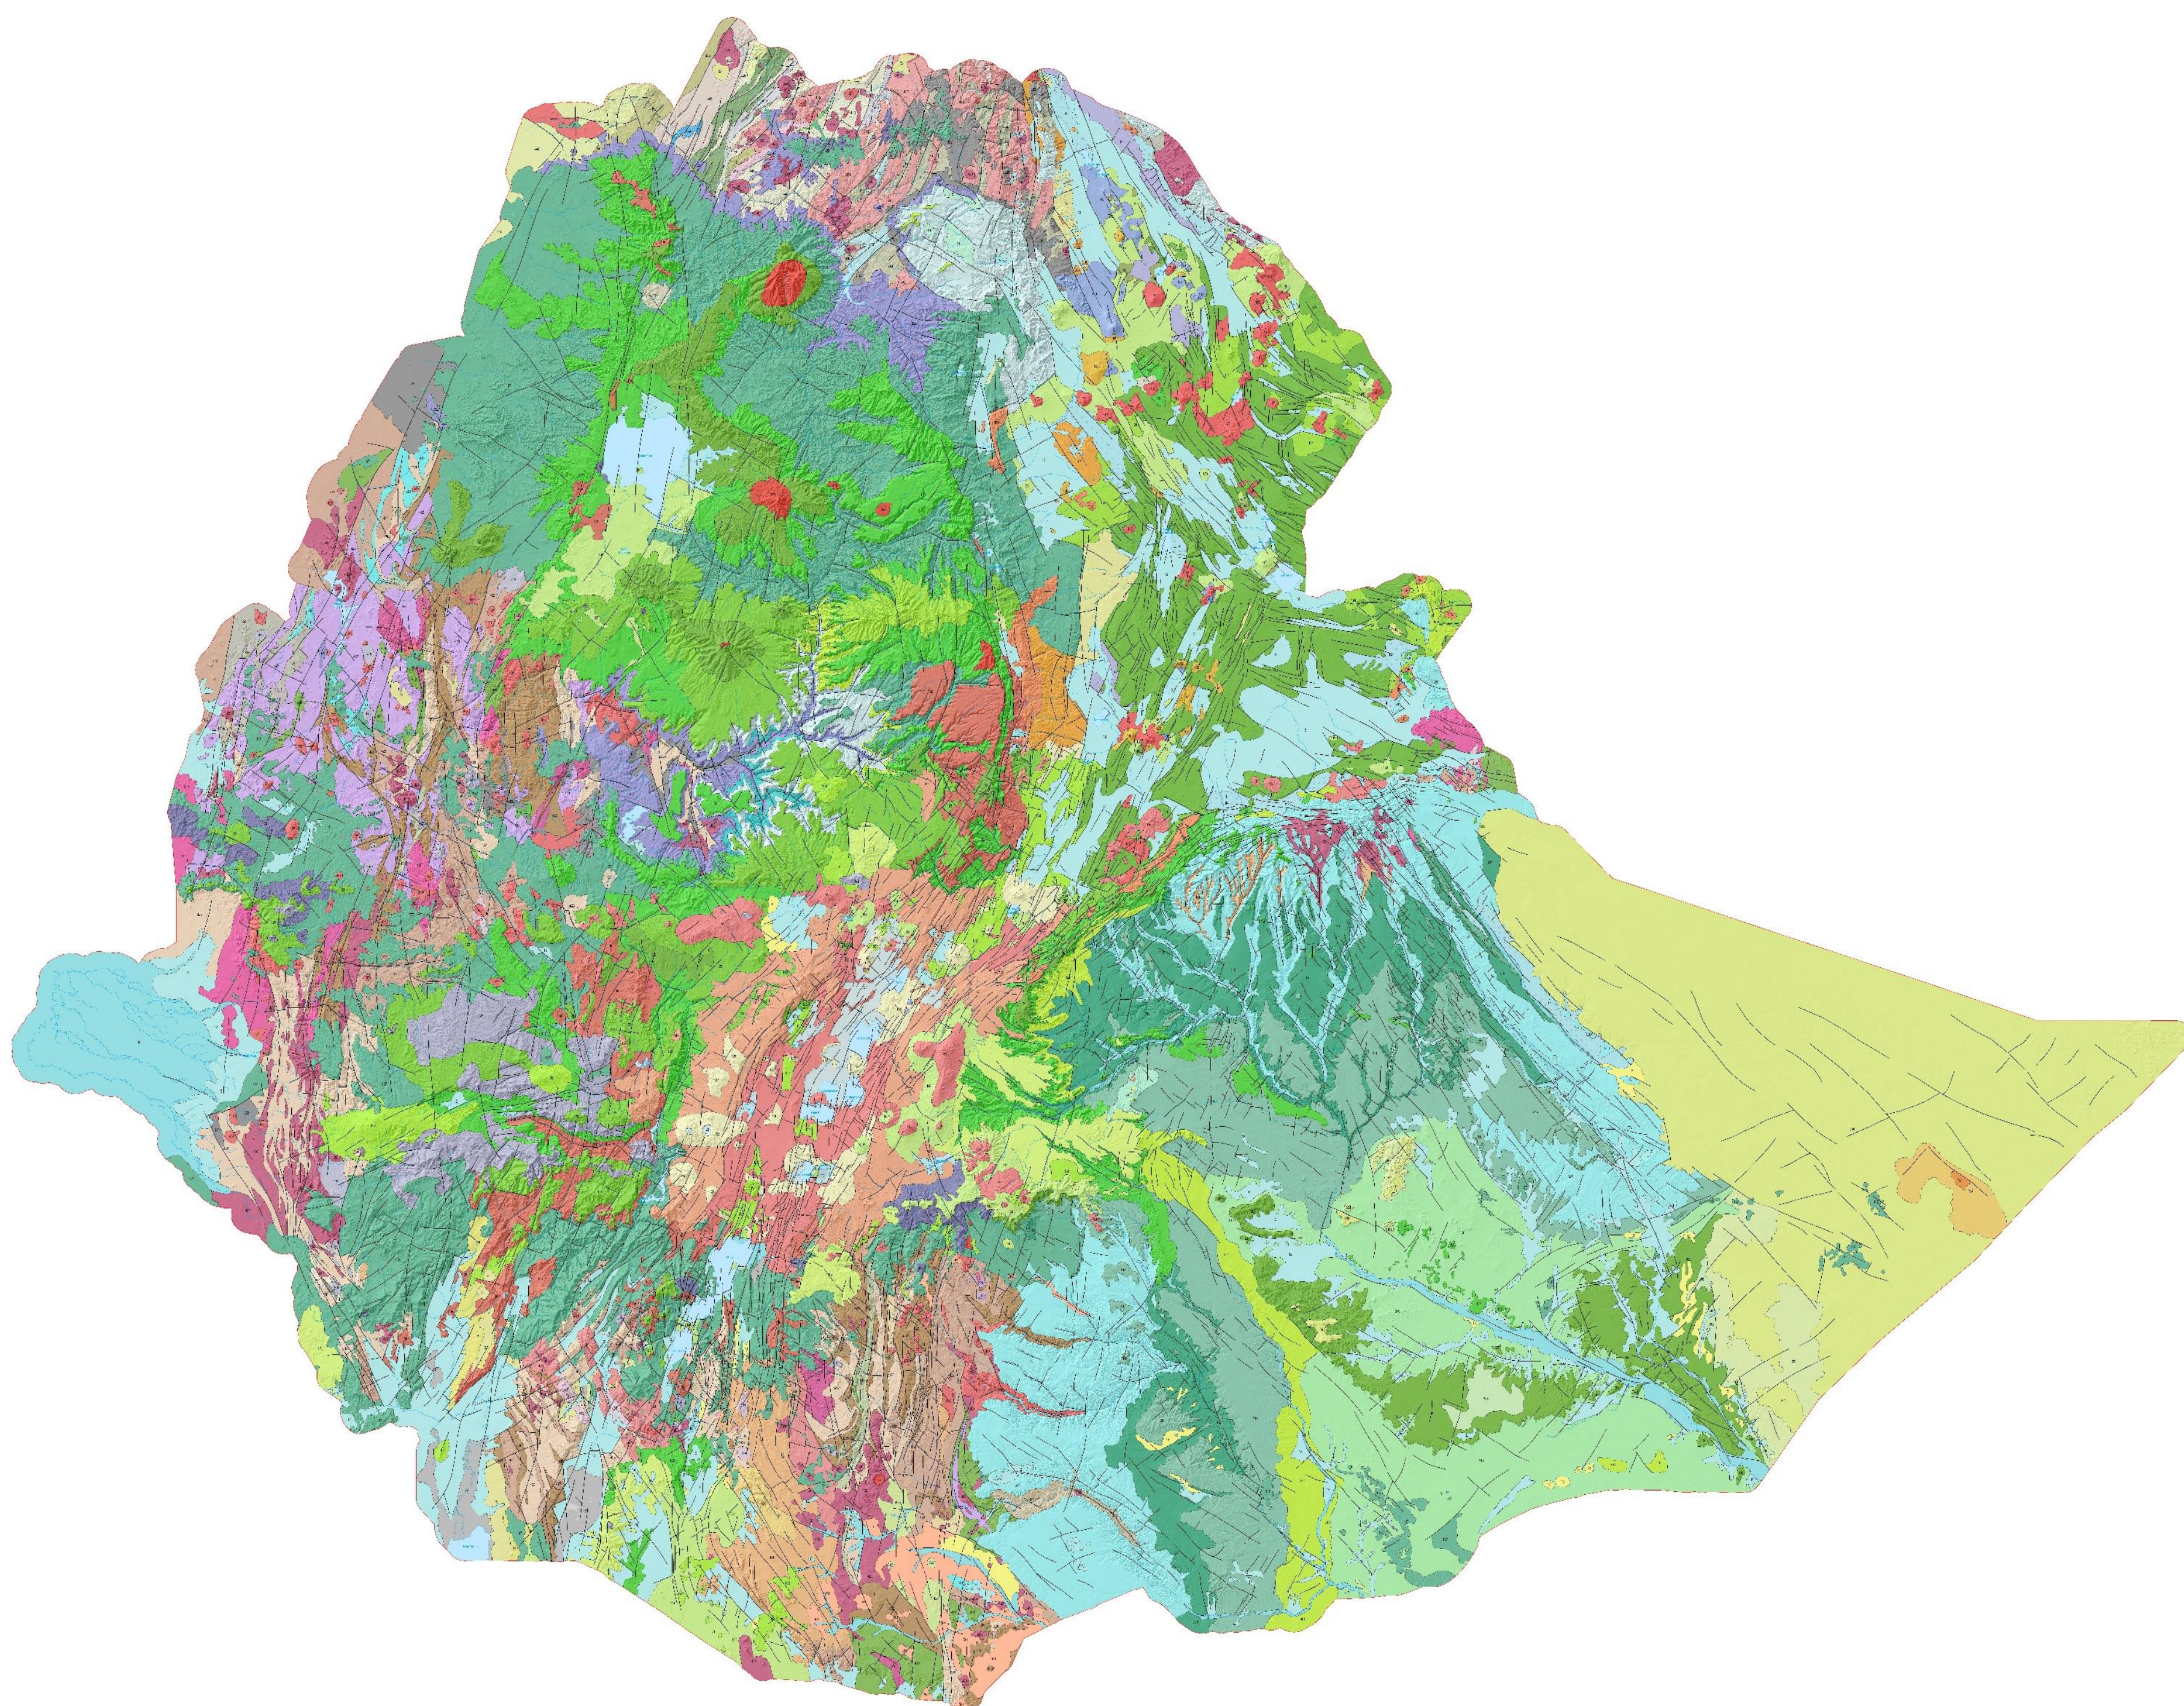

# Czech Aid in Ethiopia

- **Agriculture and rural development**, with a focus on strengthening sustainable landscape management and climate resilience in areas affected by climate change, ensuring access to safe water, protecting biodiversity and promoting environmentally friendly agricultural practices.
- **Inclusive social development** reflecting Ethiopia's strategy for food security, quality health care, modern equitable and inclusive education, technical and vocational skills development and linking education to employment opportunities.
- **Good democratic governance** that meets Ethiopia's needs for enhanced governance and transparency in public administration and sustainable use and management of natural resources.

One of the landmark projects was the creation of geological and hydrogeological map of Ethiopia at a scale of 1:1 000 000. The compilation of geoscience data is essential for effective planning and appropriate allocation and management of natural resources in Ethiopia.

# Czech Aid in Georgia

## Rural Development & Agriculture

Boosted sustainable rural development by enhancing local livelihoods, access to services, and empowering mountain communities through eco-friendly Innovation.

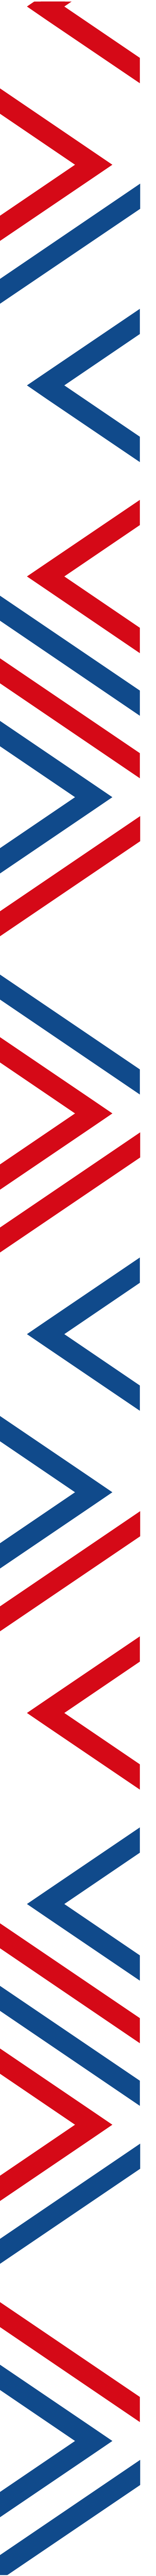

## Healthcare & Social Inclusion

Stronger primary healthcare, early disease detection, and inclusive social services, empowering the most vulnerable through innovation and care.

## Democracy, Civil Society and Independent Media

Strengthened institutions, empowered civil society, and supported independent media and public engagement.

# Czech Aid in Ukraine

## Aid to Ukraine after 24 February 2022 is an important part of Czech foreign policy

This assistance is currently being implemented under the Ukraine Programme with a budget of 500 mil. CZK per year and delivered in cooperation with several Czech ministries and through a number of diverse tools.

*Medical buses*

Czechia is helping throughout Ukraine, emphasizing cooperation with the Dnipropetrovsk region in the east of the country.

The provided assistance focuses mainly on health, energy, water management, ecology, education, civil society as well as other areas.

*Rural modular medical office*

*Cogeneration units*

The Czech Republic is actively involved in the Ukraine Facility instrument, under which it received a total of EUR 188 million from the EU for the involvement of Czech companies in the reconstruction of Ukraine.

# Czech Aid in Zambia

**Strengthening people, governance systems, and sustainability for a resilient future**

## Natural resources

### **Sustainable landscape management**

Czech development cooperation implements bilateral projects and leads the SLIM project under the European Green Nexus programme with the aim of promoting sustainable land use, forest protection and ecosystem restoration.

## Health care

### **MEDEVAC Medical Humanitarian Missions and Improving the Quality of Equipment**

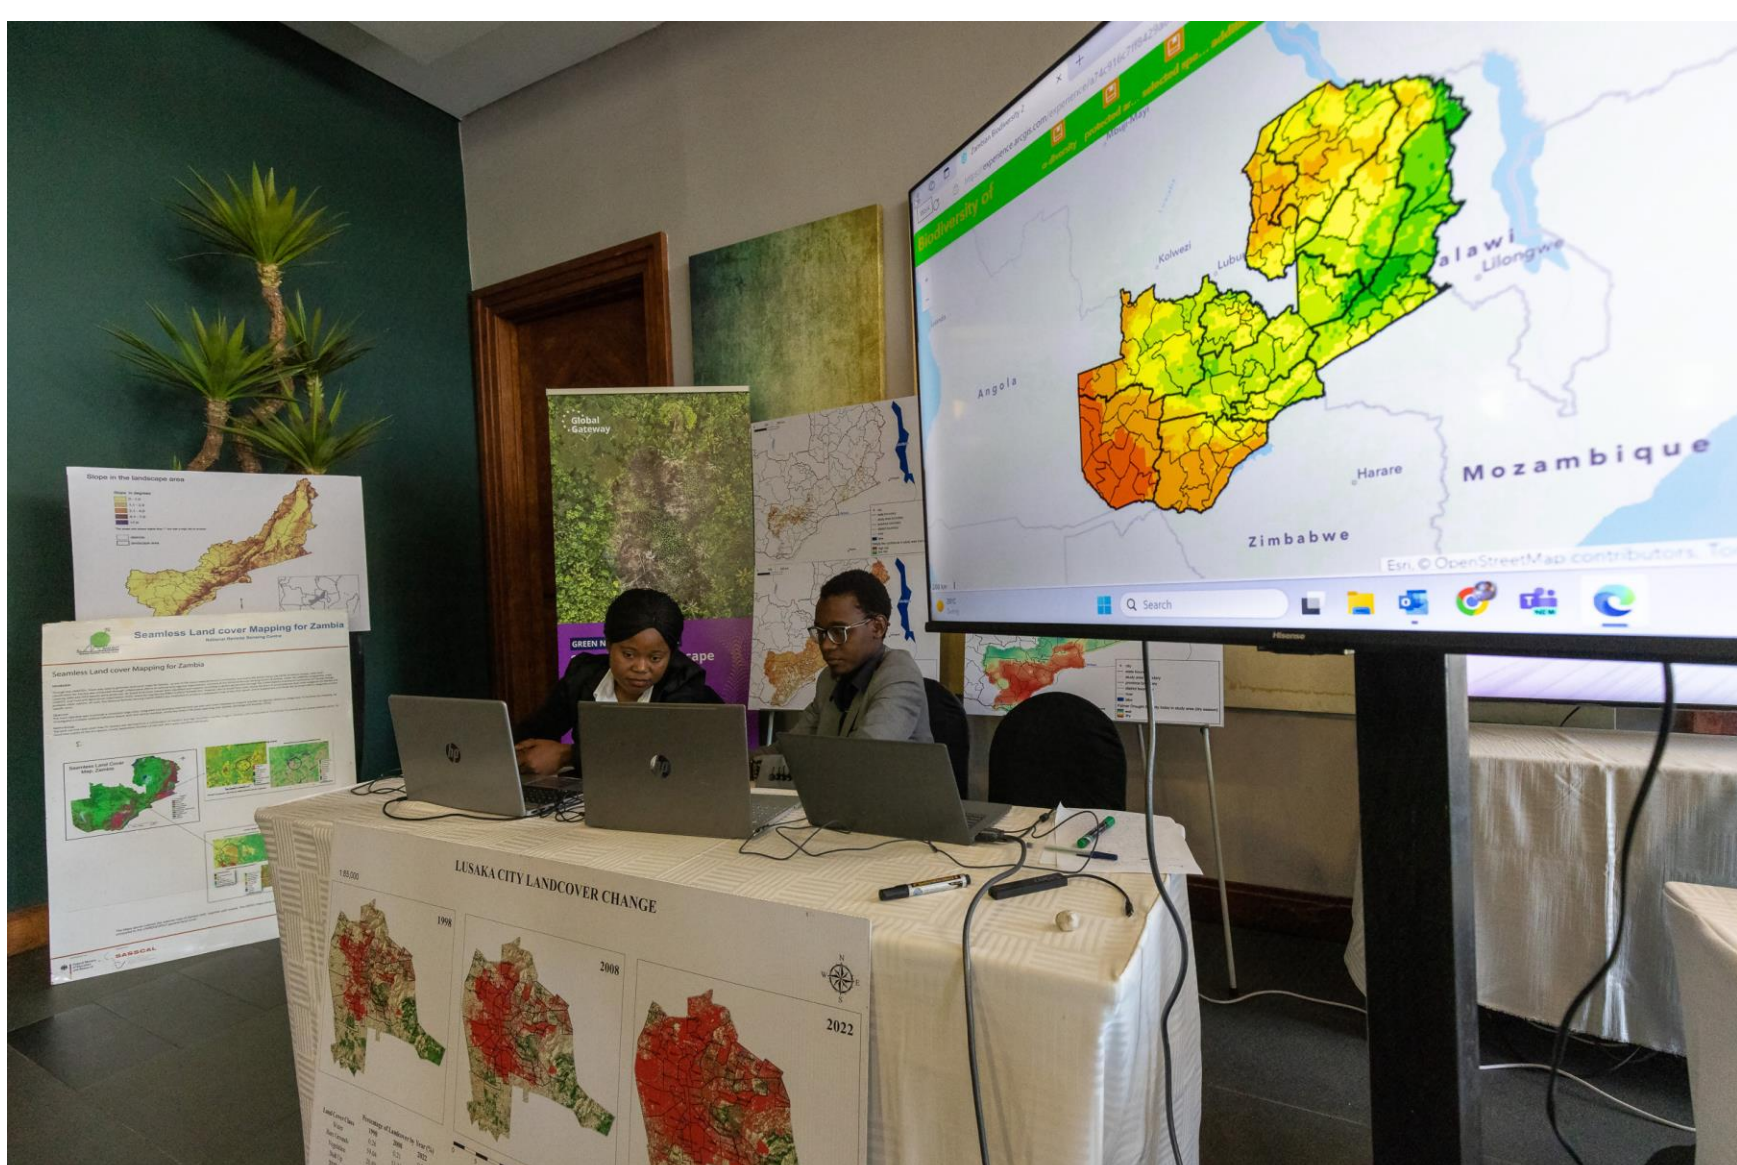

Czech doctors work with hospitals in Zambia to provide life-saving surgeries and long-term capacity building in healthcare. Czech companies improve the quality of medical equipment through targeted donations and training.

## Effective governance

### **Data, Effective Governance and Coordination**

The SLIM project and other bilateral projects strengthen Zambia's capacity to plan for and respond to environmental and development challenges through evidence-based decision-making.

## Humanitarian aid

### **Resilience, nutrition and crisis response**

Czech Aid supports the most vulnerable communities – refugees, smallholder farmers and people affected by crises – through targeted humanitarian and development aid.

# Czech Aid in Moldova

## A Partnership for Sustainable Change

For more than 20 years, Czechia has been supporting Moldova's development through investments social services, agriculture, public safety, and environmental protection
