Products and Services	analysers, measuring/measurement

envites[®]

Company name	Envites
Business Description	ENVITES is a Czech producer of self-designed filter presses. Filter presses are devices for solid/liquid separation and can be used in a variety of process filtration and sludge dewatering applications. The main use of filter presses is in mining, ceramics, metal industry, chemical industry and on water and wastewater treatment plants. ENVITES filter presses are designed with filter plates ranging in size from 250 x 250 mm to 1500 x 2000 mm and can be equipped with chamber or membrane pack of filter plates. ENVITES is also a producer of various devices for water and wastewater treatment and a supplier of technological units.
